HOW TO USE THE PACK

01 CHOOSE A DIRECTION

Pick the design that feels closest to your idea. Avoid combining several detailed compositions into one small tattoo.

02 BRING IT TO AN ARTIST

Share the licensed file and ask what should change for the body area, size, line weight, and the artist's own way of working.

03 KEEP THE FINAL VERSION PERSONAL

A tattoo artist may simplify, redraw, mirror, or adapt the design for one personal tattoo.

LICENSE NOTE

The buyer may use the artwork for their own tattoos and share the selected file with the tattoo artist making that work. The blank files may not be resold, reposted as a design collection, sublicensed, or used in products for sale.
